

An authentic agricultural domain in the South of France

Two hundred hectares of unspoiled nature nestled in the heart of the Luberon Regional Park, where typical Provençal plants such as lavender, lavandin, thyme, rosemany are grown organically.

PUR NATURE, a dream fullfilled by Véronique Agnel

PUR NATURE,

the new organic certified cosmetic range of Les Agnels

Years of experience in the field of aromatic plants and perfumes,

With a know-how inherited from five generations of distillers,

In-depth research carried out within a french laboratory, specializing in organic essentials oils,

A technological success with a new product formulation,

An organic brand anchored in Provence.

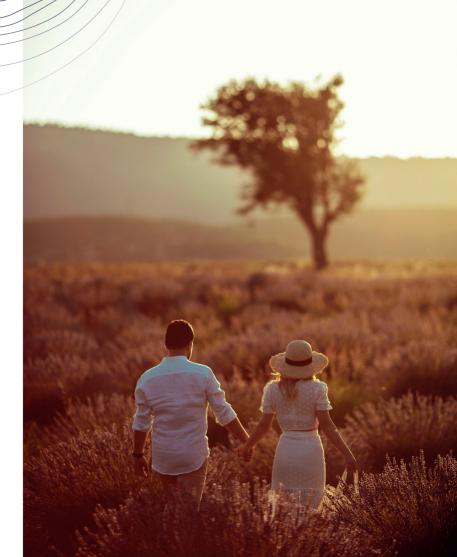

Pur Nature, an invitation to travel more intimately to a secret Provence

An elegant and deep fragrance

The scent of lavender enhanced by bergamotlemon citrus notes, is supported by the woody side of patchouli and clary sage: composed exclusively from organic essential oils, this fragrance transports you to the heart of Provence.

For her, for him, for them, Pur Nature takes care of all of us... naturally!

Véronique Agnel creates this new natural cosmetic range in a very subtle way, in a way that transcends any one gender or generation.

A perfume
An oil for the body and the face
A hand cream
A face cream

A signature with light lines...

It could be the rings of an oak tree, counting the past decades and telling the story of a Provençal family who settled on these lands for centuries,

It could be the circles in the spring water found in Les Agnels or those made during the distillation process

Lines that reflect the deep nature of this cosmetic range

Under the apparent simplicity hides the complexity of a creation, a delicate perfume :

A 100% natural fragrance, certified organic, available in a range of care products

Respect for your skin Respect for the environment

lovande
